*\* Fire signature only required if demo involves fire suppression system or explosives.*

\_\_\_\_\_ Application approved Permit #: \_\_\_\_\_ Date permit issued: \_\_\_\_\_

*Copy of issued permit to:*     Health Officer     Fire Dept.     Assessing     Permit File

# File Copy

## Doing a demolition?

### Important Information

*Please read prior to beginning any demolition.*

**Disconnecting Electric** Please contact Construction Services at Public Service of New Hampshire (1-800-362-7764) to arrange for electrical service to be properly disconnected. This can take 5-10 business days from initial call to shut-off, so please plan accordingly.

**No Burning of Debris** Combustion of demolition debris is prohibited by State law. Combustion means the burning of material in a stove, boiler, furnace, outdoor fireplace, any outdoor fire pit, bonfire or any manner where the material is consumed by fire.

**State Building Code** All commercial demolition must comply with the provisions of Sect. 3303 of the Int'l Building Code. Copies of the IBC are available at Town Hall for research and review.

**Notice About Hazardous Ruins** Owners or occupants of land shall not permit fire or other ruins to be left but shall remove same to ground level and fill to grade within one year of the damage. Owners who will rebuild as specified in 133-72 (non-conforming uses) shall secure the property so as not to constitute a hazard or visual blight. (SOURCE: Henniker Zoning Ordinance Sect. 133-9).

**Digsafe** If any excavation within 100-feet of an underground facility will be done, State law (RSA 374:48-54) requires that you notify Digsafe at least 3 days prior by calling 1-888-DIG-SAFE (1-800-344-7233) or dialing 811. The utility companies will then mark or flag their underground facilities.

**Asbestos** The owner may need to provide written notification to the NH Department of Environmental Services and the local health officer at least ten working days before any building demolition activity occurs regardless of the amount of asbestos present. Single-family, owner-occupied homeowners may be exempt. Please call NH DES directly for details at (603) 271-1370 or visit <http://des.nh.gov/sitemap/index.htm> and click on "asbestos".
